Eldad Yikne

Frontend Tech Lead | Angular & React

052-6587480

eldadykn@gmail.com

Summary

Frontend-focused Tech Lead with **4+ years of hands-on experience** building client-side applications, with deep, production-proven expertise in **Angular and React** (plus NextJS and TypeScript). Currently Tech Lead at **Brightbuild**, leading frontend architecture and delivery of AI-powered products. Works daily with **Claude AI** (Claude Code, Claude API) and Model Context Protocol (MCP) to build AI-driven features and accelerate development.

Experienced working with remote, cross-functional teams. Passionate about clean architecture, performance and high-quality user experiences.

Tech Skills

- **Frontend:** Angular, React.js, NextJS, TypeScript, JavaScript (ES6+), Vue.js, RxJS
- **Styling & UI:** HTML5, CSS3, SASS, TailwindCSS, Responsive Design, Component Libraries
- **AI: Claude AI** (Claude Code, Claude API), OpenAI API, Model Context Protocol (MCP), AI Agents, Prompt Engineering, Cursor
- **Backend:** Node.js, Nest.js, Express.js, RESTful APIs, PHP
- **Databases & Cloud:** MySQL, MongoDB, Firebase, AWS
- **Tools:** Git, GitHub, CI/CD, Code Reviews

Experience

Brightbuild | Tech Lead | February 2026 – Present

- Leading frontend development of **AI-powered solutions** for clients, built with **Angular, React, NextJS and TypeScript**.
- Defining frontend architecture, coding standards and reusable component libraries across Angular and React projects.
- Building AI-driven interfaces – chat experiences, AI agents and automation workflows – using **Claude AI**, OpenAI API and **MCP**.
- Using **Claude Code** in daily development workflows to speed up delivery, refactoring and code quality.
- Mentoring frontend developers, leading **code reviews** and technical planning to ensure quality and on-time delivery.
- Working closely with product, design and clients to translate business requirements into scalable technical solutions.

Codere Online | Full-Stack Developer | December 2024 – January 2026

- Developed and maintained high-traffic web applications using **Angular, React, NextJS and TypeScript**.
- Built performant, responsive UIs for a high-scale online gaming platform.
- Integrated AI features using LLM APIs for personalized content, internal automations and natural language interactions.
- Integrated frontend with **RESTful APIs** and third-party services; contributed to Node.js, PHP, SQL and MongoDB services.

Go-Code | Full-Stack Developer | July 2022 – November 2024

- Developed and maintained client applications using **Angular, React, TypeScript and TailwindCSS**, with Node.js and MongoDB backends.
- Built reusable UI components and optimized performance across devices for a smooth user experience.
- Designed and integrated **RESTful APIs** and third-party APIs, ensuring seamless frontend–backend communication.
- **Collaborated with cross-functional teams**; managed Git workflows, code reviews and CI/CD.

Education

Full-Stack Development Bootcamp – Coding Academy (2022)
M.A. in Educational Guidance (2020)
B.Ed in Special Education (2017)

Language Skills
